ous inroad of modern engineering upon the desert country—is beginning to take definite form, in the opinion of the engineering and irrigation experts and the representatives of allied interests throughout the southwest who met yesterday for a conference with Arthur P. Davis, director of the reclamation service of the United States.

An entire day of discussion ended in the unanimous agreement that the mammoth project of the Boulder canyon dam on the Colorado river with the attendant power, and irrigation development, should be thoroughly investigated and that the report upon it be presented to Congress next fall should carry with it the hearty endorsement of civic, irrigation and state organizations throughout the southwest.

WARD'S  
ORANGE-CRUSH  
CONTAINS NO  
ORANGE JUICE

AS A DRINK in itself, Ward's Orange-Crush is irresistibly delicious—an ideal thirst-quencher.

But that is not all. Did you ever try an Orange-Crush ice-cream soda? Here, indeed, is a treat of surpassing delightfulness!

Simply put a portion of ice-cream in a glass and pour a bottle of golden, sparkling Orange-Crush over it—or ask for an Orange-Crush ice-cream soda at any soda-fountain.

Two more happy suggestions: Orange-Crush malted-milk or Orange-Crush sundae!

Ward's Lemon-Crush—the companion drink to Orange-Crush—is equally delicious.

The tempting flavor and fragrance of these drinks come from the delicate oil pressed from the fruit itself, combined by the exclusive Ward process with purest sugar and citric acid—the natural acid of citrus fruits.

**A Traveling Man's Experience**  
You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1883 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions, and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man." ## Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. Use this gel about four ounces of ordinary liquid arvon; apply it at night when retreating; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single skin and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be shiny, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

Miss Ruth Simpson will be bridesmaid and will be gowned in pink organdy and will carry pink roses and fern. The bride will wear a lovely bridal gown of all white, and carry lilies of the valley, roses and orchids in her shower bouquet.

The bride's table, at the wedding supper will be a handsome appointment in pink bloom. Miss Virginia Treadwell, sister of the bride-elect, will sing before the ceremony. Miss Wiggin is to be attended by her sister, Mrs. Mervyn Latham of Sacramento, as matron of honor and Miss Lydia Love as bridesmaid.

MISS VERA DE VERE ADAMS, debutante daughter of Mrs. Adolph Uhl, one of the most sought-after girls about the bay among the visiting midshipmen.

## MY HEART and MY HUSBAND

(Continued from yesterday)

The Way Mrs. Durkee "Made Up" to Lella Fairfax

"Oh! I know I'm a perfect fool, but I can't help it—I can't!" Little Mrs. Durkee's voice rose in a wall strongly tinged with hysteria. In the shelter of the rose hedge, secure from observation, Lillian gripped my arm significantly. "I knew that she was waiting as tensely as I for Mother Graham's reply, wondering what her attitude would be toward Mrs. Durkee's unreasoning disapproval of her son's betrothal to Lella Fairfax."

"You are all of that," my mother-in-law's voice was as grimly disapproving of giving offense as is generally characteristic of her. "and it is all nonsense to say that you cannot help it. Sit down on that bench and get yourself together while I tell you something."

Lillian and I exchanged hopeful

amused glances. Evidently Mother Graham was "strictly on the job," as Dicky would say.

**WONDERFUL WORDS**

"Oh!" Mrs. Durkee's childish voice held vast astonishment and more than a little resentful chagrin. We heard her bounce on the seat with an angry rustling of silken draperies, very much as a bantam hen would ruffle her feathers at something which displeased her.

"Of course, I might have known that you would be against me, too," she said petulantly, and I knew just how her extremely pretty lips were pouting. Mrs. Durkee is one of the rarely fortunate women who preserve a certain youthful beauty far into late middle age and—who are fully aware of their good fortune.

"And I must confess that I didn't expect it at you either," she went on, "after what you said on the way out here, about knowing all about it."

"Don't be an anointed idiot just because you know how, and can do it!" my mother-in-law rejoined tartly, and I grinned joyously at Lillian, as I recognized the phrase Mother Graham so often used in talking to Dicky and me. "Of course I know all about it, and that's exactly the reason why I'm trying to prevent you from making the same mistake I did, although if you must

have the truth, I never humiliated my son in the public way that you did yours this afternoon. But I objected so strongly to Richard's marrying Margaret that I said things which I am afraid Richard will never forget. He has never seemed quite so near to me since. And now, when I have learned that Margaret is exactly the wife for Richard, I would give a good deal to unsmother the things I uttered at the time of their marriage."

"Exactly the wife for Richard?" For a moment while the wonderful words poured over my consciousness I forgot our errand, everything save the blessed fact that a wound, long hidden yet none the less painful, had been suddenly healed. I had long known that my mother-in-law under all her grimmness had a very sincere affection for me. But that she approved of me, was fully contented with Dicky's choice, was news most grateful to me.

**A SWIFT RETREAT**  
"You ought to know, having once had a mother-in-law yourself," went on my mother-in-law with relentless logic, "that the wife, if she be even ordinarily lovable, always has the inside track."

"You can just best I do," replied little Mrs. Durkee. "I had the most cantankerous old dame you ever set your eyes on, but I managed it so

that she never succeeded in interfering between my husband and me, although she tried it often enough, goodness knows. But I had my own way in everything."

"And Lella Fairfax will do the same thing, you mark my word," retorted my mother-in-law. "Alfred will simply eat out of her hand. So if you don't want her—and incidentally your son—to regard you as a 'cantankerous old dame,' I would advise you—"

"Oh!" Mrs. Durkee capitulated swiftly, entirely, at the dismal picture my mother-in-law had deftly painted. "I hadn't thought of it that way. Do you suppose Alf will forgive me?"

"Beat it, quick!" Lillian whispered in my ear, and noiselessly, swiftly, we skinned back over the grassy path, entered the house breathlessly, and then hugged each other ecstatically.

"You'll find Alf and Lella in the library," Lillian said a second later. "Better tip them off and get them back into the dining room, so everything will be as it was when Mrs. Durkee flew the coop."

I obeyed her, and when Mother Graham and Mrs. Durkee—the latter flushed and "teary" around the mouth—appeared in the doorway, we were all chatting busily.

# Think What These Tubes Have Done

Every superb performance to the credit of Goodyear Cord Tires is no less an indorsement of Goodyear Heavy Tourist Tubes.

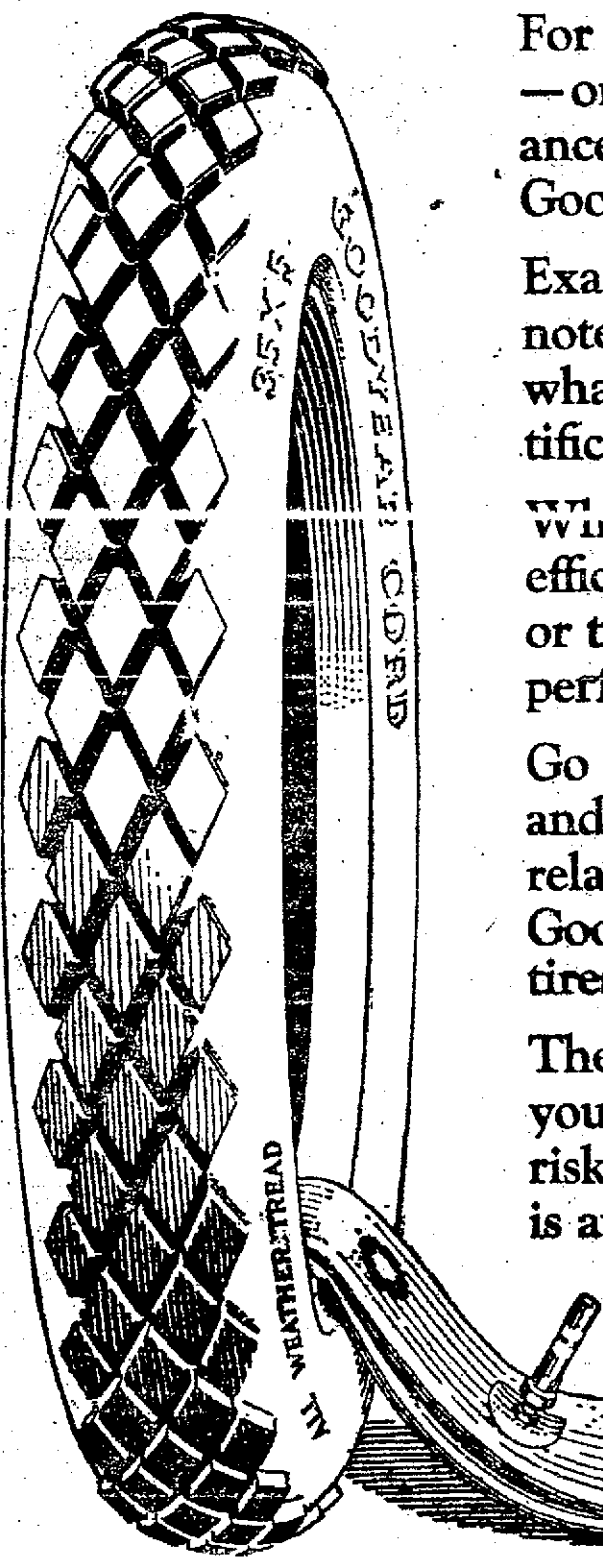

For wherever Goodyear Cords have triumphed—on speedways, on motor trucks, in endurance tests or on airplanes—there have been Goodyear Tubes inside them.

Examine a Goodyear Heavy Tourist Tube; note its thick, powerful and vigorous body—what other tube has a construction so scientifically leakless?

What other tube embodies in like degree the efficient layer-upon-layer principle of making, or the integral valve-patch feature in similar perfection?

Go to your Goodyear Service Station Dealer and ask for these tubes by name—they are relatively as superior to ordinary tubes as Goodyear Cord Tires are superior to ordinary tires.

Their initial cost is no more than the price you are asked for tubes of less merit—why risk costly casings when such sure protection is available?

# U.S. WILL REAP \$100,000,000 IN RAIL RATE RISE

WASHINGTON, Aug. 4.—(By The Associated Press.)—Increased revenues, officially estimated at \$100,000,000 annually will accrue to the Treasury in the advance in railroad transportation rates. The advance in rates, which will be effective on August 1, will be derived from increased transportation taxes, paid by the public, as well as through operation of the income and excise provisions of the revenue laws.

Transportation taxes for the year ending June 30, 1920, were \$100,000,000. The advance in rates, which will be effective on August 1, will be derived from increased transportation taxes, paid by the public, as well as through operation of the income and excise provisions of the revenue laws.

# Graphic Tribute to Dry Idea Is Paid by Margaret Smith

It was a graphic and animated tribute to the prohibition idea that Margaret Smith presented this morning when she appeared at the Central police station. Years ago Margaret was a well-known character in police circles and played a role similar to that played by Belle Morand and Della Graham now.

A well-dressed woman appeared at the window of the desk sergeant's office and Sergeant Charles Hemphill stopped up.

"Well, sergeant, don't you recognize me?" asked the woman with a smile.

"No," replied Hemphill. "The first woman I arrested when I joined this police force fourteen years ago. I thought you were dead and gone long ago."

"I happened to be passing through Oakland and it was my birthday, so I just thought I would call on my old friends," she said.

Then she told of her fight to stay "on the wagon" and of how it had succeeded; and of how, with the elimination of the booze habit, she had regained her self-respect and capacity to make an honest living.

"The old town has changed a lot," said Margaret. "Why, I went around to some of the old places that used to be dens of booze and vice, and now they are turned into restaurants and stores and real estate offices. I hardly know the old place, but it is sure a change for the better."

"Let's see, I don't think it's the first time you have celebrated your birthday by calling at the police station," suggested Hemphill.

"No," replied the woman. "Only before, when my birthday would come around I would start out to celebrate it, my call at the police station was involuntary and was usually made in a lot of style—my private enclosed car, you know."

"Yes, with two police officers as chauffeur and footman," said Hemphill.

"That's right," said Margaret. "I was once arrested by Judge Samuel's men," she said. "I wonder how many times I've heard them say 'Five days in the city prison, or ten days in the county jail, but it is sure a change for the better.'"

When told they were still on the police court benches upstairs, she announced her intention of calling on them and talking over old times.

According to a computation made by Sergeant Hemphill, Margaret Smith was arrested 157 times and spent a total of four years and six months in the city prison.

# Wheat Prices Crash, But Soon Rebound

CHICAGO, Aug. 4.—(By The Associated Press.)—Excited general selling brought about a sensational crash in wheat prices today. Wheat futures dropped \$1.12 1/2 on the opening. December delivery was quoted at \$2.21, off 1/2 c from yesterday's close, and March at \$2.21, off 1/2 c. Corn and oats were comparatively steady. Most of the selling was said to come from country holders anxious to turn their wheat into cash. In a few minutes, however, the market rebounded as much as 11 cents in some cases.

# Poppy Sale Money To France at Once

Eighty-five per cent of the gross receipts of the Poppy day sale here Saturday will be cabled to France Monday to be used at once in sending French children from the devastated areas into rest camps, where they can be cared for. Only 15 per cent of the gross receipts is reserved at national headquarters for an expense and sinking fund and much of this eventually will be sent to France.

Saturday night the money will be deposited in the Crocker National bank in San Francisco and the poppies are to be sold by Oakland girls.

# Head of Oakland Tailors to Speak

The Oakland Exchange of the Pacific Coast Merchant Tailors' Association will meet tonight in the rooms of the Merchants' Exchange, with William H. Barry as speaker. Officers of the exchange are: Kenneth Wilk, president; L. Jones, vice president; J. B. Smith, treasurer and W. R. Crosby, secretary.

# Physician Robbed

BERKELEY, Aug. 4.—Dr. W. H. Ivis has reported to the police that a thief stole a kit from his car which contained about \$10 worth of drugs and some surgical instruments. The case was standing in front of the First National Bank building.

# NEW ATHLETIC DIRECTOR NAMED FOR BERKELEY

BERKELEY, Aug. 4.—Herbert M. Ross, New York physical education expert, was yesterday named by the board of education to succeed the late J. H. Osborne as head of the physical education department at Berkeley High school.

Ross was formerly, engaged in high school physical education in New York and was recommended for the Berkeley post by Dr. Clark Hetherington, state director of physical education. As assistants he will have Harry P. Mahlow and J. H. Swaine, both recommended by Dr. Hetherington.

Osborne, Ross' predecessor, was ousted by the board of education some weeks ago, as a result of difficulties with the students extending over several years. Osborne declared that his refusal to make "heroes" out of a small portion of the student body was the cause of his removal.

Miss Zula Neeson was yesterday named to the girls' physical education department at the high school.

Ross, a native of New York, is a member of the American Physical Education Association and has been in charge of the physical education of the New York City public schools for several years.

# ALAMEDA PLANS TO CARRY ITS OWN INSURANCE

ALAMEDA, Aug. 4.—Recommendation that the city carry its own compensation insurance risks instead of in the state fund was made last night by City Manager C. E. Hewes before the council. Councilman C. L. Thien approved. The city manager presented a table of costs covering the past five years under the state plan, showing that Alameda had paid \$7,745.58 in premiums and received in return but \$752.81 in premiums.

In a communication from the San Francisco-Oakland Terminal railway company the source was asked to adopt an ordinance intended to stop conversation with motormen on street cars. Councilman Al Latham moved that the traction company be informed the ordinance would be passed if motormen were made equally amenable to the law with passengers. His motion was carried.

The sum of \$150 was allowed to covet a guard rail at the foot of Bay street. The terminal of this street is to be destroyed at present.

# Irrigation Bond Holders Fear Investments Hurt

Thousands of holders of \$25,000,000 worth of irrigation bonds in California are apprehensive that the State Supreme Court decision yesterday declaring the California irrigation act of 1919 unconstitutional has adversely affected their holdings, according to J. H. Mason & Co. of San Francisco.

"The decision in no way affects the outstanding bonds," Mason declared. "These bonds were issued under the irrigation act of 1917. There have been no bonds issued under the act of 1919. The thousands of irrigation bond owners throughout the state are not concerned with the Supreme Court decision. The legality of the act of 1917 has already been sustained by the State Supreme Court of the United States."

ACT DECLARED UNLAWFUL

The California state irrigation act, passed in 1915 and amended in 1919, was declared illegal by the Supreme Court yesterday in the test case of George W. Mordue et al. versus the Board of Supervisors of Madera county. Warren Olney Jr. was the presiding judge. The decision declares the irrigation districts invalid and automatically discharges state officials; affects the reclamation of at least 1,000,000 acres of dry land in California; holds up pending applications for the creation of irrigation districts which are pending before the state irrigation board. It will necessitate the forming of all irrigation districts under the Wright act of 1887 or will compel the state legislature at its next session to enact a new law for the formation of irrigation districts.

Never in history has a court decision been more wide-sweeping and affected more property than this one. It holds the state irrigation act, passed in 1915, and the act of 1919, uniformity of operation, which because of an exception which itself contains, does not operate uniformly.

# WATER COMPANY DELAYS REPORT

Submission of the East Bay Water Company's figure for the sale of its entire plant to the Eastbay municipalities will be delayed for at least two weeks, officials of the company today informed Mayor John L. Davis, chairman of the water committee of Oakland, Berkeley, Alameda, Richmond and Emeryville.

The valuation was promised to the committee by July 1, when the committee finally decided two months ago on the purchase of the plant. The delay is due to the fact that the water problem confronting the cities. According to George Wilhelm, general manager and chief engineer of the company, the task of taking an inventory of the company's properties has developed into a larger job than was anticipated.

The report of the engineering committee of the Water Commission of the Eastbay cities is due to be presented to the water committee with the company's valuation. This report will designate those portions of the company's properties that can be dispensed with by the cities if the plant is purchased.

# Big Land Holdings Keep in District

MADERA, Cal., Aug. 4.—The effect on the Madera irrigation district of the decision by the Supreme Court declaring the California irrigation act of 1919 unconstitutional is to keep within the district some \$4,500,000 of assessed valuation represented by the Madera & Los Angeles lands county officials said. These land owners, whose property is about one-fifth of the assessed valuation of the district, sought exclusion so their acreage could be sold in districts organized under the irrigation act.

The Madera project was started about five years ago, and the actual work of organization was completed in 1920, when about 97 per cent of the land owners voted in favor of forming the district under the Wright Act. The district plans to build across the San Joaquin river 8 days 17 hours and 14 minutes, breaking his own transcontinental record of seven days, 11 hours and 32 minutes. The trip was made under the auspices of the United States army recruiting service.

# Vallejo Lays Groundwork of Legal Battle for Tidelands

Vallejo case was by far an easier one to handle than the San Pedro case, that he believed he could complete the case by next spring and that the lawyers had saved the city of Los Angeles millions in litigation and would no doubt do much good for Vallejo. Hatfield said the attorney would ask \$5000 to handle the case as far as the State Supreme Court and an additional \$2500 if carried to the United States Supreme Court. The city to be called upon to pay the cost of traveling expenses.

The council voted unanimously to invite Attorney Anderson to Vallejo. The steps are of state-wide importance, according to the officials and the outcome of the litigation will undoubtedly be watched with as much interest as the San Pedro case.

# "Cannon Ball Joe" Sets New Auto Mark

## JAPAN FAVORS KOREA MISSIONS

TOKYO, Aug. 4.—Dr. Senji Egi, a member of the House of Peers, on returning from an inspection of conditions in Korea is quoted as making the following reference to foreign missionaries: "I have done my best to get at the truth of the reports that have been circulated regarding the instigation of Korean students by their missionary teachers against the Japanese authorities, but have found that with very few exceptions the rumors are not true. The impression left on me was that the missionaries are

honestly striving to develop the country in order that it may yield good results to the Koreans. Whatever their motives, there is no reason why the Japanese should not welcome these efforts." Dr. Egi said that Korea has attained striking progress since the inauguration of the new regime. "But," he added, "there is yet great need for improvement. While I was in Korea, I took every opportunity to meet representative Koreans and learn their point of view. The most intelligent of them have realized that it is futile to try to establish an independent government. But I think it is very necessary that the Japanese should know that the Koreans aim at local autonomy."

## Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

## Children Cry For Fletcher's CASTORIA

### Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wriggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

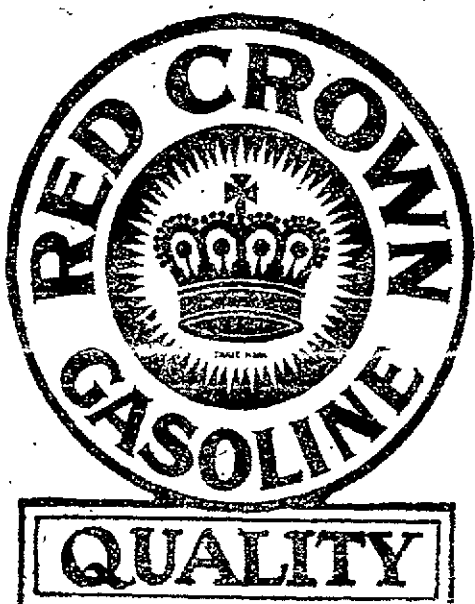

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

## POLICE HUNTING MOTORIST WHO STRUCK WOMAN

BERKELEY, Aug. 4.—The Berkeley police today are endeavoring to locate the motorist who struck Mrs. George O'Brien of Oakland from his auto near Fleming Point and severely injured her last night. The ambulance was called out last night upon report of a Southern Pacific car conductor, who reported having seen a woman lying in the street. The ambulance driver reported he found Mrs. O'Brien suffering from cuts and bruises. With her was her sister, Mrs. William Gillick. The police say that the woman advised them they met a man who invited them to take a ride in an auto. When they reached Fleming Point they got into a quarrel, the police say, and the motorist threw Mrs. O'Brien from the car. Her sister then leaped out and the auto escaped.

## Attempt at 'Suicide' Proves False Alarm

The police were called last evening to the home of James Crowley, 504 East Seventeenth street. The call they state was made by Crowley, who said his wife had "just committed suicide." Patrolman Harry Teeple states when he got there he found Mrs. Crowley lying on the floor in apparent agony and he was told she had drunk poison. At the emergency hospital the attaches say they found she had drunk a solution of nuxom and other spicy ingredients. In explanation, the police say, Mrs. Crowley stated:

"I was only trying to frighten my husband, who has threatened to leave me. I wanted to see if he still loved me and would really care if I did commit suicide."

## Exposition Started It, Wife's Plea Says

Since the Panama-Pacific Exposition, James G. Jessie, 1507 Ninth avenue, an auditor employed in San Francisco, has neglected her to remain in San Francisco until unusual hours and refused to give her any explanation. Mrs. Jessie says in a suit for divorce today. She declares her husband has maintained a cold and taciturn attitude for several years and has consistently refused to take her or their children to any amusements or to introduce her to his friends. Mrs. Jessie says her husband has an income of \$500 a month.

## Home to Babes Mrs. Emma Freitas, acquitted of the murder of her husband, who has returned home to the care of her little ones.

## Oakland Saloon Man Is Held for Trial

SAN FRANCISCO, Aug. 4.—Frank Barbagelata, proprietor of the Clayton bar at 1000 Clay street, Oakland, was held to answer under \$1000 bonds for violation of the national prohibition act by Commissioner Krull today. Barbagelata is accused of selling at 50 cents a drink a liquid purporting to be whiskey, but which is alleged was composed of colored alcohol.

## Husband's Accusations Denied; Divorce Asked

Charging that her husband, Albert M. Brooks, employed in San Francisco, falsely accused her of associating with other men, Mrs. Gertrude C. Brooks has filed suit for divorce and asked custody of the children and an allowance for their maintenance.

## MRS. FREITAS IS GIVEN FREEDOM ON THIRD BALLOT

"Not guilty" was the verdict pronounced late yesterday by the jury which for the past week has been sitting in the murder trial of Mrs. Emma Freitas, aged 23, charged with having shot and killed her husband, Tony Freitas, amateur prize fighter, on the night of April 10.

The woman, widowed by her own hand, with her two small children clinging to her, presented a pathetic figure when the seven men and five women who held her fate in their hands filed into the courtroom after word had been sent that they had reached a verdict. Scores of friends, who had been waiting anxiously for a decision, hung about the doors and thronged the corridors.

Superior Judge James G. Quinn cautioned the spectators that any demonstration would be punished with fines for contempt of court. "Mama's coming home" was the childish cry that pierced the silence of the court room which followed the announcement of the verdict.

JUSTIFICATION FOUND. Three ballots were taken by the jury. The first two stood 11 to 1 for acquittal. The third agreed on the verdict of "not guilty," making no reference to the defense plea of temporary insanity. The decision, according to the jurors, was based on the fact that the abuses which Tony Freitas had heaped upon his wife were sufficient to warrant shooting under excitement.

While Mrs. Emma Freitas was hearing that once again she was a free woman, her 15-year-old sister, Mary Mello, and Edward Whyte were being married in the office of Police Judge Ralph Richmond. Whyte was arrested on a statutory charge made against him on Monday by the Mello girl. The prosecution was dropped when he promised to wed her. According to Inspector Frank Neils the girl's parents purchased the wedding ring and secured the marriage license.

## GIRL TELLS OF ABUSE

When Emma Freitas fired the shot on the night of April 10 which killed her husband, she ended, according to her own story on the witness stand, a chapter of frightful abuse brought against her by the law which forbids murder. The defense throughout the case has not been that she did not kill Freitas but that she fired the shot while laboring under temporary insanity.

Freitas on the day of the shooting packed his clothes and went to his mother's house, following a quarrel. Mrs. Freitas testified that she discovered that \$75, which she was saving for an operation, had disappeared after his departure. She followed him. On three occasions in her search she visited the cigar store of Joe Freitas. It was there she obtained the pistol, "to kill myself," she said. For more than an hour she hunted for Freitas. The couple met at Railroad and Twenty-third streets and after an exchange of words Mrs. Freitas fired three shots at her husband. He lived several days. Mrs. Freitas was born in Honolulu 23 years ago, coming to Oakland when she was six. When 12 years old and in the third grade she left school to work in the mills.

## COURT SETTLES OWNERSHIP OF 25,000 ACRES

SAN FRANCISCO, Aug. 4.—The decision of the surveyor general of the state as to the character of land and its suitability for cultivation at the time of first locations in a ruling that vested title to some 25,000 acres of land in Kings County Development company. The land is valued at more than \$1,000,000, according to T. M. C. Gregory, attorney for the company. The supreme court denied a petition of the attorney general for a rehearing of a suit brought in the name of the people of California to annul patents to the land on the ground that its character was different from what the patentees had claimed for it.

## Street Inspectors' Pay Raise Rejected

As a result of the rejection by City Auditor Harry G. Williams of salary claims of street inspectors carrying an increase in pay of \$2 a day, the City Council this morning passed an ordinance amending the recent measure fixing salaries of municipal employees, placing the pay of the inspectors back at the old basis of \$6 a day, allowed under the street improvement law of 1911.

At the same time the announcement was made by Commissioner W. H. Edwards, who introduced the amending ordinance, that the inspectors covered by the state law are contemplating an action to get an increase from \$5 a day to \$7 a day. The lower salary is fixed by the state law and it was on that ground that Williams rejected the claims covering the increase provided by the recent ordinance.

Another amendment to the salary-fixing ordinance on and to the ordinance passed recently modifying all positions in the municipal service, was passed on the recommendation of Commissioner F. F. Morse, combining the position of sanitary and plumbing inspector under one title with a salary of \$200 a month.

## Oaklanders Accused As Grappa Dealers

SAN FRANCISCO, Aug. 4.—Five proprietors of so-called "soft drink" establishments were named in 13 informations charging violations of the national prohibition amendment filed today in the United States District Court here.

Charles Scholz and Joseph Straus, 458 Eighth street, charged with having grappa in their possession; Kaufman Coney, A. J. Martin and Joseph Deane, all of 404 Twelfth street, who are charged with having in their possession a spirituous liquor the ingredients of which the government confesses it does not know. Coney and his associate pleaded guilty. Coney explained his wife was critically ill and asked that sentence be postponed. After announcing that the affidavits from the physician attending Mrs. Coney would have to be substantiated by a federal physician, Federal Judge William H. Sawtelle set the imposition of sentence for September 20.

## City Pension Raise Question Up Again

In a petition filed by Herman Rumetsch, retired corporal of police, in behalf of all retired members of the department, the question of whether pensioned firemen and policemen will be able to collect pensions based on salary increases allowed after their retirement from active duty, was again placed before the City Council this morning. Rumetsch cited a recent decision of the District Court of Appeals determining that pensions of San Francisco police shall be so increased. The petition was turned over to City Attorney Hagan and trustees of the police relief and pension fund for investigation.

Matters of public welfare, in which the club is interested, were discussed. W. A. Wann presided. A. P. Leach was the principal speaker.

## CITY TO SELL PROPERTY FOR UNPAID TAXES

The fact that property, on which taxes totaling more than \$30,000 is assessed, which has reverted to the city for delinquency for more than five years, remains unclaimed with no effort having been made to provide for the collection of the taxes owing to the city, was called to the attention of the city officers this morning by Commissioner W. J. Bacus.

In accordance with the recommendation of the department head, the case was turned over to City Attorney B. L. Hagan for investigation and report in order that steps may be taken at once to sell the property involved at public auction in order to reimburse the city coffers for the taxes owing on the land.

According to Commissioner Bacus, the law provides that the city tax collector shall have the same power as the county tax collector holds under the state law, to dispose of property after a period of five years, that has reverted to the city for delinquency in tax payment. Some of the property involved, Bacus announced, reverted to the city more than 10 years ago.

## Arson Held Certain In Curtis Fire Case

Investigation is being pressed into the fire late Monday night at the home of Miss Mamie Curtis, 37 Seventh street. Deputy Fire Marshal Norrup says he believes it a clear case of incendiarism, but that nothing had developed to fix the responsibility. Police think the oil soaked rag found in a lower closet of the house covered with rugs and blankets, were placed there by an arsonist whose enemy Miss Curtis had incurred.

"Did Daniels drink it?" the President is reported to have queried. "He did," Payne replied. "It was kickless, then," said the President.

## NEW BARBADOES CABLE CAUSE OF CAPITAL MIX-UP

WASHINGTON, Aug. 4.—(By the Associated Press.)—President Wilson is understood to have issued orders to both army and navy departments not to permit the Western Union Telegraph company to land a cable from the Barbadoes on American soil until permission has been obtained from the state department. Laying of the cable from the Barbadoes end is said to have started.

Application for permission to lay the cable has been made at Washington but so far as could be learned today it has not been acted on. Officials declined to discuss the matter.

The proposed cable line, it was said here, would extend to Miami, Fla., and would establish direct communication between the United States and South America, eliminating the existing relay at the Barbadoes station in British territory.

## I'VE KILLED A BURGLAR, PHONES WOMAN; SHE HAD

It was at 2:10 this morning that the emergency call came into the Northern police station. A series of shots had disturbed the neighborhood of Sixty-third and Colby street. It resulted in a flood of telephone calls from perturbed citizens, and then the phone rang wildly once more and a woman's voice sounded in the receiver.

"I have just shot a burglar," said the woman, who was Mrs. E. Tully, of 389 Sixty-third street. "Come quick; he is still kicking and screaming in my chicken pen."

Lieutenant William Wood and a squad of ten cops dashed to the place. All was quiet within the chicken pen, but one can never tell when burglars are playing possum; on the pen was surrounded, and Lieutenant Wood and a patrolman entered the door. The burglar was gasping his last on the floor and still squirming and scratching spasmodically. It was a large cat.

GASOLINE RISES  
THREE CENTS A  
GALLON TODAY

The Union Oil Company of California today announced price increases on gasoline at basic distributing points on the coast.

Beginning today gasoline will be sold at the following prices: Oakland and San Francisco, 27c; Fresno, 27c; Stockton, 27c; San Jose, 27c; Seattle, 28c; Sacramento, 27c; San Diego, 27c; Los Angeles, 27c; Portland, 29c (including state road tax).

Importation of Texas and Oklahoma gasoline to meet an alleged shortage on the Pacific Coast has made the price increases necessary, the company said. The increases amount to about 3 cents per gallon.

**STATEMENT ISSUED.**  
In a statement issued by the Union Oil Company, through its general manager, E. W. Clark, figures concerning the gasoline shortage are here given:

"In 1919 the total production of gasoline in the state of California was approximately 500,000,000 gallons, the production for 1920 is estimated at 400,000,000 gallons, the estimated consumption of the Pacific coast states for 1920 is estimated at approximately 550,000,000 gallons, leaving a shortage of approximately 150,000,000 gallons.

"In view of these facts the Union Oil Company of California closed its export offices early in the year. At the same time we have attempted to retain on the Pacific coast the present low gasoline prices which are lower than at any other point in the entire world. But it has been absolutely impossible to supply the gasoline required at the present low prices."

**SEVEN TRAINS ARRIVE.**  
Since the company started a policy of importing gasoline to the Pacific coast from the mid-continent oil fields seven trains of 175 tank cars have been brought to the Pacific coast, the statement says.

According to Clark, this gasoline costs slightly more than 35 cents a gallon, after it is ready for sale here. What gasoline is being imported is therefore being sold at a loss, this cost being paid by the extra profit realized on California gasoline through the increase in price.

The statement continues:  
"It is only fair that the public should know that the Union Oil Company is not exporting any gasoline from the Pacific coast."

**CYCLIST INJURED.**  
SAN JOSE, Aug. 4.—Joseph Roberts, a cyclist living at 284 First street, was bruised and suffered slight injuries when his wheel was struck by an automobile driven by T. F. Millerick of Sonoma.

Baby Chicks Are Souvenirs  
As Petaluma 'Eggs' Oakland

When Petaluma girls paraded with the monster egg that told the particular business of their section of the State. Two of the egg girls, MISS ESTHER KAARTINEN, left, and MISS ELROSE BIGGS, are also pictured.

Petaluma's Advertising Club entertained scores of Oakland men and women, including members of the Oakland Ad Club, yesterday noon with an "Egg Day" parade followed by "Chicken stunts" at a luncheon at the Hotel Oakland.

Petaluma girls carried ribbons attached to the "biggest egg in the world" in the parade, another sang, and one little Petaluma girl was "hatched" from an egg and danced on the table at the opening of the luncheon. After that Petaluma Ad club boosters told the large audience how and why this city is the "egg basket of the world."

CITY EXTENDS  
OPEN HAND TO  
NAVAL CADETS.

Two hundred U. S. Naval Academy cadets from Annapolis were welcomed by Oakland city officials and Community Service girls at the Clay street wharf when they arrived this morning at 11:15 o'clock. They were taken on a tour of Richmond and adjacent Eastbay country in seventy-five automobiles, were fêted at an outdoor luncheon at 1:15 at Lakeside park, provided by Red Cross canteen workers and will be tendered a banquet and ball this evening at the Hotel Oakland.

The visitors during the afternoon were scheduled to attend a local theater as its guests and thence to the ball park to watch a baseball game. The Goat Island band of 103 pieces joined in the reception to the cadets and will play at the ball this evening.

The cadets on their arrival at the hotel were met by machines provided by the Richmond chamber of commerce and a local committee composed of Mayor John L. Davis, Commissioner W. H. Edwards, Fred Soderberg, William L. Eason and F. F. Morse. Walter H. H. Capwell, Joseph R. Koshborough, Joseph R. Knowland and Joseph L. Carleton, who are also patrons for the ball this evening.

Admiral Joseph E. Joyce and the Oakland and Richmond reception committees also joined in the outdoor luncheon, which was served by Mesdames Wallace Alexander, George Morrison, Edward Burton, Ernest Mendenhall, Gwei, Hottis, Horace Furness, E. J. Boyes, Samuel Southon and Madeline Clifford and Miss Ann Eberhart.

The banquet will be given at 6 p. m. and then from 7 p. m. to 10 p. m. there will be the formal reception, ball and dancing. The cadets, seventy-five Community Service girls and seventy-five girls invited by the patronesses, besides the patrons, patronesses and other invited guests. The ball will be held in the Ivory ballroom which will be decorated with American flags.

Among the patronesses are: Mesdames George Morrison, Horatio Bonestell, William Thornton, Lillian Brown Roberts, Percy Murock, Wallace Alexander, Ernest Mendenhall, Cleveland Baker, Madeline Clifford, Ross, Emory Elliott, C. F. Hottis, Joseph Hoyer, Thomas Mitchell, Potter Howard, Watson Bray, Frederick Page, Cutting George, Ralph Bernard Ransome, John H. Joyce, Oscar Long, Harry East Miller, Eugene Perry and Miss Clara Taft, Miss Elsa Ames, Miss Dorothy Allyn, Miss Harriet Morgan.

With the luncheon to 120 Annapolis cadets, Admiral J. E. Joyce and his staff in Lakeside park only an hour away, and with insufficient money raised either for this evening or for the banquet this evening, a committee from the Community Service headed by Jesse Robinson appeared before the City Council this morning and secured the appropriation of \$700 for this purpose.

Ad club and Chamber of Commerce representative, summarized briefly the industrial conditions and the egg business of Petaluma. Kerrigan said that because the Petaluma postmaster must handle from 30,000 to 40,000 baby chicks a day by parcel post, a new postoffice is greatly needed.

Miss Nelda Houx sang, accompanied by Mrs. Edna Shores Campbell, and the "chicken dance" by the four Petaluma girls concluded the program.

As the Oakland guests left the banquet room, each was given a baby chick.

The Petaluma Ad club is boosting a rodeo which will be held in that city on August 21-22.

BURGLARS ARE  
POLITE BUT GET  
LOOT IN HOME

Search is now being made by the Oakland police for three robbers who, they believe, committed a series of burglaries here within 48 hours. In each instance the men were masked and heavily armed, taking only minor precautions and displaying no signs of boldness.

The robbers entered the home of Charles D. Robinson last night and held up Robinson and his 15-year-old son. The men limited the front door and entered the bedroom where Robinson and his son were sleeping. One of the robbers stood guard with his gun while the others ransacked the room, taking \$40 in money from the pocket of Robinson's clothes. Silverware and jewelry were taken from other rooms in the house. The men escaped through a front entrance.

Held up at the point of a revolver by an unmasked and well-dressed robber yesterday afternoon, Mrs. Arthur E. Ladewit, 507 Thirty-third street, was compelled to hand over \$34. The robber was alone when the burglar entered her home. Mrs. Ladewit declared the burglar was the most polite criminal she had ever seen. She said he came into her room without her knowing it until she looked up into the muzzle of the revolver. She said that he politely ordered her to turn over all her money and jewelry. He said there would be no trouble if she complied. He then thanked her and retired from the house. His description answered to that of one of the men who held up the Robinsons.

Shortly after the robbery at the Ladewit home, Mrs. Alice Jonas reported to the police that she had been robbed of \$15 by a man who answers closely the description of the bandit with whom Mrs. Ladewit had the encounter.

C. L. Sims, 1515 Brush street, found three burglars looting his home when he returned from the theater last night. One of the men, he said, was a Mexican.

Filipinos to Hear  
Japanese Lecturer

TOKYO, July 15.—At the request of the president of the Philippine University, the Tokyo Imperial University is sending Dr. Nishino Matsunori, professor of the university law college to the islands to lecture on Japanese political organization during the summer season.

In an interview Dr. Matsunori said that some of his personal Filipino friends, writing recently, expressed their desire for lectures touching on such subjects, also on "Loyalty to the Imperial Throne" and "Gentle or Cold Sashimono."

Oldest Member of  
Odd Fellows Dies

CHILLICOTHE, Mo., Aug. 4.—Seccates England, believed to be the second oldest Odd Fellow in the United States, died here at the age of 97. He became a member of the I. O. O. F. at Curdsville, Ky., in March, 1855. He had also been a member of the Masonic order for the past fifty years, and had lived in this place for fifty years.

Yosemite's Biggest Year, Says  
National Park Head in Oakland

Hope for large appropriations by Congress for national park work was expressed today by Stephen Mather, director of national parks, who has just arrived in Oakland from a visit to Yosemite park. Mather is encouraged to think, he says, that more funds will be voted by the next Congress, in view of the recent tour made of the parks by the general appropriations committee.

This committee, he says, was impressed with the part the parks are playing in the life of the people and one of its members said, during a dinner in Portland, that he realized the need for greater support.

**LONG ROAD TOUR AHEAD.**  
Mather is planning to start an official tour of the park to park highway on August 25. The start will be made at Denver and stops will be made at Yellowstone, Glacier, Rainier, Yosemite and the Grand Canyon.

"We are endeavoring to interest the states in the improvement of this highway," Mather said. "The trip carries us through some of the grandest scenery in the world. The road now is used by some, but to draw heavy travel must be maintained. When this plan is realized it will be possible for people to visit all of the parks on one trip."

The Yosemite Valley, Mather says, has experienced the heaviest travel in its history this year. On August 1, 15,000 people had registered on the floor of the valley. Campers there now can have their provisions taken in by parcel post.

**ELIVATE POSTOFFICE.**  
"The Yosemite postoffice has been made a second class one," he said. "Each day two trucks carry to the mail. One carries first, the other second class mail. If campers feel they can get their provisions cheaper by sending outside, they can send down one day and get them back the next."

Mather is enthusiastic over the Tuolumne Meadows, on the Tioga road, as a camping place. He terms it "one of the finest camping sites in the country." Already it is commencing to attract the tourists and next year he expects that supervised campsites will have to be laid out. A store has been put in there this year.

Colonel John R. White, a former army officer, has been named superintendent of the Sequoia park, succeeding Walter Fry, who has been named commissioner, it is announced.

**BODIES HINT SEA BATTLE IN FEUD.**  
SAN DIEGO, Aug. 4.—Bits of wreckage and four bodies found floating in the bay and knowledge that a deep seated racial feud exists on local fishing banks, has caused the spread of a report that the Japanese fishing boat Yamato, missing from San Pedro for a month, was blown up or rammed and her crew slain.

Since the summer runs began, there has been high feeling between Japanese, Austrian and Italian fishermen. Many small boats have come in rammed or with nets cut and tackle ruined. On a few occasions some of the fishing boats have shown bullet holes.

The four bodies, found at different times and places, indicated murder in each case. Each body bore marks of violence and two of the bodies were nude.

Police hope to establish the other parties to the sea battle within a day or two. The Yamato was last seen July 12, when she hauled out of this port for the fishing banks.

If you see it in The TRIBUNE, tell them so.

MORE BODIES OF  
HERO DEAD ARE  
BROUGHT HOME

The bodies of seven California heroes, among them that of Captain Kenneth J. Booth, Nevada newspaper man and former member of the Nevada state legislature, and known in Alameda, where he made many friends during his training school days, arrived at the Oakland mole last night from Hoboken, where they had been shipped from France.

The bodies were met by a guard of honor composed of American Legion was from the bay district. Immediately after their arrival they were shipped to their various destinations, accompanied by military guards of honor.

The bodies were those of William H. Annis, Hughson, California; Kenneth J. Booth, Reno, Nevada; Lester Libbey, Santa Rosa; Leroy R. Foster, Modesto; Slack, Darbinham, Fresno; Lewis E. White, Chico, and Joseph D. Holman, Davis.

All were killed in action. Booth and Holman were both decorated by General Pershing a few weeks prior to their deaths in the front lines. Booth was the son of W. W. Booth, publisher of the Tonopah Bonanza. He learned the profession as a reporter on his father's paper, later becoming city editor of the Nevada State Journal, at which post he remained until he entered the officers' training camp at the Presidio.

He was the only member of the Nevada contingent to emerge from the training camp with a captain's commission.

War Heroine Now  
Motor Policewoman

SOUTHAMPTON, N. Y., Aug. 4.—Miss Zella de Milhau, who was awarded the Croix de Guerra by the French government for her work as an ambulance driver in the war zone, has taken a job as motor-cyclist policeman here. Her parents, Mr. and Mrs. Louis J. de Milhau of New York, are members of the summer colony.

Miss de Milhau will receive no compensation and will even furnish her own motorcycle. She will wear her overseas ambulance uniform while on duty. Her work will be to curb speeders.
